

## **ENEX: Energy efficiency benefits for the bottom line**

Tuesday 11.05 - Wednesday May 12, 2010

*Place:* Hamilton Convention Centre, Hamilton, ON

*Web Site:* <http://www.energyexcellence.ca/>

*Category:* 2010

*Additional Information:*

Effective energy management is one of the most cost-effective ways to lower operating costs and create an innovative culture within an organization - and it doesn't have to include a huge capital outlay. At the second annual ENEX conference and trade show, attendees will learn how their peers are creating more energy efficient businesses, and challenging their competition to do the same. In a turbulent economy, it's even more important to get your energy management practices in order. Join us for the premier event that helps you do so.
